Discord — Product Designer, Nitro

Google — Interaction Designer, Stadia

Led design on Stadia's Bluetooth update website by coordinating a UX team, optimizing user flows, and delivering high-fidelity prototypes. The launch recieved outstanding public sentiment with over 1 million controllers updated.

Owled design strategy for Stadia's next-generation playtesting product; aimed at democratizing cloud-based development. Partnered cross-functionally to scope and prototype a new, highly transformative feature set.

Championed the creation of an org-wide research deck for Stadia's Developer Suite offerings. Initiated collaboration with the research team to consolidate insights and artifacts, effectively streamlining future onboarding processes.

Royal Bank of Canada — UX Design Intern

Drove the redesign of the internal corporate cards tool by conducting a UX audit and delivering high-fidelity prototypes, garnering a 30% increase in form conversions.

Collaborated with product leads to design a patented wealth management network visualizer, leading to a 93% growth in active users and a 60% reduction in overhead.

Designed and delivered two executive presentations highlighting UX in FinTech.
Recognized by C-Suite executives as a top-performer out of 1400 students.

University of Toronto — B.A., Architectural Studies

Design Stream Specialist. Graduated with High Distinction, GPA: 3.94/4.00.

Awards

The screenshot shows the top of the Gemini chat window. At the top, there's a header bar with the Gemini logo (a stylized 'G' with a star) and the word 'Gemini'. To the right of the logo are three vertical dots and a close button (an 'X'). Below the header, there are two large, rounded rectangular buttons. The top button is light blue and contains the text 'Summarize this document'. The bottom button is light blue and contains the text 'Ask Gemini'.
