

What I'm bout.

WHERE I'M FROM

I was born and raised in Utica, NY. My Dad worked as a mail carrier for the Post Office. My Mom worked as a Kindergarten Teacher. Growing up they repeatedly told me to get off the computer and go outside. The OG Touch Grass™. I'm glad I did. There's not a ton to do in Utica but there is a ton to eat and the food is definitely better than where you're from.

WHAT I USED TO DO

When I was 13, I got my first job as a dishwasher at [redacted] [redacted due to child labor laws]. After that, I made pizzas at a pizzeria, chased kids around as a security guard at an elementary school, and tried to sell mattresses I knew nothing about at a furniture store.

WHAT I DO NOW

Today I'm a **Product Designer** at **Figma** ↗ designing AI experiences. Previously, I was the **Founding Product Designer** at **Diagram** ↗. Before all of that, I worked as an **Engineer** at **Romanelli** ↗ where I learned how to code (thanks, **Zac** ↗) and how to stop coding (thanks, Webflow).

WHERE I'M AT NOW

Today, I live in San Francisco, California. When I'm not working, you can usually find me with my dog at the beach, the park, or the redwoods.

WHAT I'M LOOKING FOR

Impactful, purposeful work with a diverse team of talented people. I also think the personal computer needs its **iPhone moment** ↗.
